## How to Play

- Guess the correct sequence of colours to win the game!
- Click the coloured buttons at the bottom of the game screen to enter your guess.
- You can undo guesses that do not complete a full row.
- For every four guesses you submit you will be given four hints.
  - Red: incorrect colour
  - Yellow: correct colour in the incorrect position
  - Green: correct colour in the correct position
- The order of the hints do not correspond to the order of your guesses, this is a challenge for you to figure out.
- You have 10 guesses to win the game! Fail to do so and you lose!
- Good luck and enjoy!
